

Project Design Phase
Proposed Solution Template

Date	15 February 2025
Team ID	HR-TEAM-01
Project Name	HouseRent – Online House Rental Platform
Maximum Marks	2 Marks

Proposed Solution Template:

Project team shall fill the following information in the proposed solution template.

S.No.	Parameter	Description
1.	Problem Statement (Problem to be solved)	Finding or renting a suitable house is time-consuming, inefficient and lacks transparency due to scattered information, manual communication and limited property visibility.
2.	Idea / Solution description	HouseRent is an online platform that helps users search, compare and book rental properties easily. It provides verified property listings, advanced search, booking management and communication tools.
3.	Novelty / Uniqueness	Integrated platform for tenants and property owners with real-time notifications, favorites, booking history and owner dashboard in one secure system.
4.	Social Impact / Customer Satisfaction	Saves time and effort for tenants, increases transparency and trust, helps property owners reach more genuine customers and improves overall customer satisfaction.
5.	Business Model (Revenue Model)	Revenue will be generated through service fees on bookings, premium property listings, featured advertisements and optional subscription plans for property owners.
6.	Scalability of the Solution	The platform is built using scalable web technologies and cloud infrastructure, allowing it to handle more users, properties and regions with high performance.
